# Core Values

## Dr. Farhat Hashmi

Founder Al- Huda International Welfare Foundation

*One of the most world renowned female Islamic Scholars of the century, Dr. Farhat Hashmi is today seen as an iconic figure, responsible for helping generations of Muslims develop a personal, one on one relationship with the Quran. She is considered as one of the most influential contemporary Muslim scholars (Ulema) today. As an orator, her lectures, and talks, based on authentic knowledge, are known to touch the hearts of millions, as every word she speaks is from the heart. Personally, she considers herself an "eternal student and servant of the Quran" and, more than an icon, orator or scholar, prefers to be simply called a "Muallim" (teacher)*

## Al Huda COVID-19 Book Drive

Simple Idea  
Big  
impact

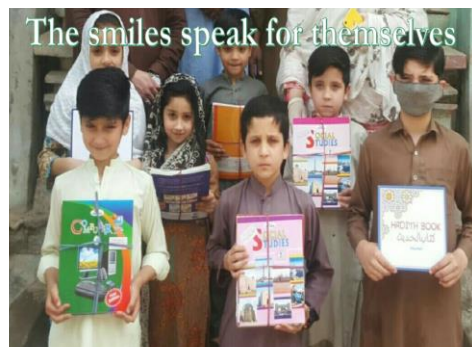

A team of public servants and Al Huda Islamabad got together to collect quality books and donate to Government school libraries. Many books were donated to libraries of Inner city schools in Peshawar. By the time the campaign was in progress the COVID-19 lockdown started and the schools closed down. The team changed strategy and decided to take the books to the kids' neighborhoods and provide to the children in their homes. Three communities were selected in Peshawar and volunteers ran small libraries. Children and adults were kept safe at home away from streets reading books.

## Pictorial Presentation

## Qurbani Project

### Project Overview:

Qurbani lexically means something through which one can approach Allah. As it is understood from the word sacrifice (qurban) is an opportunity to be close to Allah and to gain his consent.

Allah states the following in the Chapter al-Hajj: "It is not their meat nor their blood that reaches Allah: it is your piety that reaches Him." (22/37). Accordingly, it is understood that the real aim of sacrificing an animal is to fulfill the order of Allah and show that one fears Allah. It means we can sacrifice even our most valuable things if Allah asks us. The aim is to show that we can even sacrifice our lives just like Hazrat Ibrahim (Abraham) who decided to sacrifice his son, Ismail (Ishmael). In a sense, qurban means we can get rid of the feeling of loving worldly possessions and sacrifice everything for the sake of Allah SWT.

Hazrat Abu Hurairah reports that the Apostle of Allah has said: "Whoever has the capacity to sacrifice and does not do so, should not come to the place where the Eid prayer is offered." (Ibn Majah).

### Qurbani Objective:

- Enlivening Sunnah of Ibrahim (A.S).
- Distribution of meat to the needy families involving regions and their respected branches.
- Bringing People closer to Allah (SWT).
- Vulnerable: women, children and elderly by providing them with meat at least once in a year.

### Project Description:

## IT Department (websites, Apps & Servers)

### Overview:

The IT Department serves as the backbone of all modern organizations. This is why it enjoys paramount status in the 21st century. Its significance came to the fore particularly in the beginning of this year when the world found itself in the midst of the corona pandemic. Against this backdrop, Al-Huda international's IT Department too has been engaged in providing varying services to different stakeholders from time to time. At the start of the year, Al-Huda faced a system breakdown which restricted students' access to Al-Huda's online video library. Primary cause of this was a fault in the underwater internet backbone cable which connects European and Asian countries. Its impact was predominant for students from India and Pakistan. Keeping in view the gravity of the situation and importance of the online video library, the IT department after days of hard work, developed a custom, cost effective solution. It first involved gathering stats of students from world over after which it was ascertained that majority of them belong to US, Canada, UK, Pakistan and India. Then, to avoid such a situation from arising in the future, we decided to set up Data Service infrastructure in 3 countries, namely, India, US and UK, which would ensure reliable connectivity from Data Service setups in 2 countries if there was a breakdown in one of them. This venture proved to be quite fruitful.

In any case, the field of IT is such that it requires frequent up gradation. Therefore, the institution has shifted all its websites on its new servers after making proper arrangements for cyber security, covering all angles.

When Covid peaked, negatively affecting children's' education, the importance of online education was highlighted. The organization had already introduced a website by the name of Alhuda ([www.e-alhuda.com](http://www.e-alhuda.com)) along with some mobile apps .Hence, we introduced this feature by integrating Zoom with our own mobile app, paving the way for live sessions. At any specified time, students can now be part of an online class through the click of a button.

The organization has also introduced several other apps in the past among which 'Learn Quran', Al-Huda Live' and 'Quran in Hand' stand out.
