An Invitation to Invest in Education for Change

Our work
spans
16
Districts
In Sindh

Our objective is to bring a change in the lives of our people by connecting them to Allah ﷻ, His Qur'an and His Prophet ﷺ

Re-igniting the spirit of Islam in Sindh; Gate way to Islam in Southeast Asia

Why Invest in Education?

- With more than 50 per cent Pakistanis living below the poverty line, and in absence of necessities like access to quality food, education and health care, literacy and education remains low on the priority list. Half of Sindh population lives in rural areas and female Literacy in Sindh is barely 32% of the population.
- With the vision of uplifting the Quranic value of equal opportunities for all strata of the society, Al-Huda aims to serve humanity by sharing knowledge of the Quran as well as imparting literacy for the pleasure of Allah (swt). The light of knowledge must not just be limited to urban Pakistan but must illuminate every home and every heart.

- **Al-Huda** has been able to break through the wall of resistance against **girls' education** by doing **extensive welfare projects** in under-privileged and rural areas and gaining the trust of the community.
- **Hostel based courses in Hyderabad** provide unique opportunity to girls from distant areas of Sindh to get **free or subsidized education in a safe and wholesome environment**.
- **The syllabus** focus on learning correct recitation, word to word translation and explanation of the Quran, as well as Seerah of the Prophet ﷺ helps to develop deep and profound understanding of the **Quran & sunnah** and **practical implementation** in their lives helping the students lead better lives, become better persons, and become more productive citizens.

Hostel Experience- a Game Changer

- ✓ **A disciplined schedule** from tahajjud till Maghrib builds personal and time management skills.
- ✓ Special focus on nurturing strong **ethical values** makes them become more **responsible and fulfilled individuals**.
- ✓ The **daily routine** reinforces good habits including personal hygiene and care of the environment.
- ✓ The **literacy classes** enable those that lack education to enter the educational stream.
- ✓ **Life skills** trainings improve their quality of life and income generating skills.
- ✓ Many girls after acquiring initial literacy skills are motivated to **continue their learning** reaching for higher goals not imagined before.

Hyderabad Hostel Students

The hostel experience **is life changing** for these girls. They are provided **teacher training** and are **supported** to carry this work in their home communities and serve as role models for others beginning a **process of change**.

A Staff reflects....

Mehmoon Rafiq from village Arain Shikarpur left behind her husband and family to come to our hostel to study. She says” The education and confidence I gained at Al Huda has enabled me to open a center in my village and I am now teaching girls who cannot go to the city. The change in students has been remarkable ”

From a remote village in Badeen ...

Sajida, Amina, Mehrunnisa, Shahida and Zulekha, five sisters from Sunni Gunni have gone back to their village after doing multiple courses. A one room class was built here. They are now teaching women and children in their village. A rare opportunity for the women to gain literacy and Quranic education.

The light of learning is opening doors for women and children.
